

Jorie Rutkowski is a student in Lansing Community College's elementary education program with an initial goal of becoming a second, fourth, or fifth grade teacher for at least a few years before adding a special education endorsement. During the pandemic, Jorie took on tutoring roles for elementary and high school students who had fallen behind in their reading and math skills. She will use her scholarship to further her educational goals.

"I thank you greatly for offering me this scholarship! I am pleased to accept it. Thanks to the NACCTEP Executive Board."
